

2500kg

Z/ZL 250-135 MA, Z/ZL 250-155 MA

Maximum lifting capacity: 2500kg
Maximum lifting height: 1350 or 1540mm
Operation voltage: 12 or 24V
Lift cylinders: 2
Tilt cylinders: 2

POWDER COATING

Zepro tail lifts are installed on the rear of trucks and trailers and are therefore subjected to one of the toughest working environments possible. The lifts are in the direct firing line for water and salt spray, dust, sand, snow and ice – not to mention gravel and stones being churned up from the rear tyres. In order to protect against corrosion caused by these aggressive elements Zepro inaugurated in 1997 a brand new powder painting facility in an extension to the Bispgården factory. This is one of the most modern paint shops in all of Sweden. Our powder painting process, incorporating zinc-manganese-phosphating, is applied on all tail lifts and their components to give Zepro a further advantage over the competition as regards quality, corrosion protection and long term reliability.
