Column tailift with folding platform

Description of lift

The folding platform on this lift is ideal for dropsider/flatbeds as it reduces wind drag, improves driver visibility and can be dropped vertically for fork lift loading.

Application

To suit 3.5 tonne vehicles with dropside and flat bed bodies.

Benefits

- Standard range with variations to satisfy your needs
- Increased payload
- Lower installation cost
- Nationwide product support
- Minimal running costs
- Rugged simplicity
- Operator safety
- Comprehensive warranty

Standard features

- Fully galvanised steelwork for added protection against corrosion.
- Power pack incorporated within tailift beam to reduce installation and service times plus offering excellent protection from the weather/road elements.
- Torsion assisted platform to ensure light weight tailift operation when opening and closing.

Tailift specification

Model	Lifting capacity	Platform material	Platform depth	Ramp depth	Lifting height	Voltage of tailift	Weight
DL500FG	500kg	Aluminium	815mm (Deployed)	205mm	1060mm	12v	145kgs

Options available

- Deeper working platforms
- Extra control station and cover
- Detachable side guards
- Trolley stops
- Wanderlead control station
- Fitting kits to suit factory bodies
- Detachable side ramps
- Battery guard system
- 24v hydraulic power pack
