

XARIOS 350 Mt^o is a multitemperature unit specifically designed for urban distribution vehicles up to 15 m³ in volume.

▶ A modular concept for application versatility

- ▶ Totally reversible from -20 °C to +10 °C, for operating flexibility
- ▶ Rapid installation and easy servicing contribute to reduced life cycle cost
- ▶ Unrivalled temperature recovery for urban distribution

- ▶ Choice of evaporator for maximum load space
- ▶ Innovations that respect the environment
- ▶ Microprocessor control and cab command make operation easier and safer.

■ Condenser

Dimensions

1 125 x 505 x 238 mm

Weight

Road / Standby: 87 kg
Road: 43 kg

■ Heating capacity

+ 20 °C / -18 °C: up to 3 100 W

■ Refrigeration capacity

- 20 °C / + 30 °C: up to 1 820 W

T model

Refrigerant R404A
Standby compressor
High capacity hot gas heating and defrost
Road or Road & Standby operation
230/1/50 - 400/3/50
Operation on 12VDC vehicles

Equipment

Road compressor
Road compressor mounting kit

Accessories

Door switch
Water drain heater

New unique multi-function 4-digit cab command with API Control Logic[®], developed exclusively for the XARIOS multitemperature range:

- Manages cool and heat functions separately or simultaneously
- Individual or simultaneous defrost by manual or automatic operation
- Choice of two operating modes « Automatic » or « Priority ».

A range of two slimline and one vertical evaporators ensure maximum airflow capacity and exceptional loading space. These can be adapted to an extensive number of different configurations according to your specific application, up to a total maximum volume of 15 m³.

Maximum volume up to 10 m³

◆ MXS 850 evaporator

Dimensions: 853 x 608 x 172 mm
Weight: 19 kg
Airflow: 830 m³/h

Up to 2,60 m

◆ MXS 600 evaporator

Dimensions: 603 x 548 x 172 mm
Weight: 15 kg
Airflow: 650 m³/h

Maximum volume up to 10 m³

◆ MXV 850 vertical evaporator

Dimensions: 853 x 159 x 628 mm
Weight: 17 kg
Airflow: 770 m³/h
